R.E. COMPONENTS PVT. LTD.

ENVIRONMENTAL MANAGEMENT SYSTEM (EMS) POLICY

At R.E. Components Pvt. Ltd. (RECPL), environmental protection and sustainable manufacturing are integral to our business philosophy. We are committed to continual improvement of our Environmental Management System in accordance with ISO 14001:2015, prevention of pollution, efficient use of natural resources and protection of the environment for future generations.

WE ARE COMMITTED TO:

1 LEGAL & OTHER COMPLIANCE
Comply with all applicable environmental legislation, regulatory requirements, customer requirements and other obligations relevant to our operations.

2 POLLUTION PREVENTION
Prevent pollution by minimizing emissions, waste generation, contamination and environmental impacts through effective operational controls and best manufacturing practices.

3 SUSTAINABLE RESOURCE MANAGEMENT
Conserve natural resources by reducing consumption of electricity, water, fuels, compressed air, raw materials, lubricants, industrial oils and packaging materials through monitoring, optimization and process improvements.

4 RENEWABLE ENERGY & CLIMATE ACTION
We are committed to reducing our carbon footprint by maximizing the use of renewable energy.

Currently, approximately 76% of our total electricity requirement is fulfilled through on-site Solar Energy Generation.

We shall continually increase renewable energy utilization and adopt energy-efficient technologies to reduce greenhouse gas emissions.

5 ENERGY EFFICIENCY
Continuously improve energy performance through energy-efficient CNC systems, LED lighting, high-efficiency equipment, preventive maintenance, process optimization and energy conservation initiatives.

6 WASTE MANAGEMENT
Reduce waste generation at source and ensure segregation, reuse, recycling, safe storage and responsible disposal of hazardous and non-hazardous waste as per legal requirements.

7 WATER CONSERVATION
Promote responsible water usage through efficient utilization, leak prevention, water conservation initiatives and continuous monitoring.

8 GREEN MANUFACTURING
Adopt cleaner technologies, environment-friendly manufacturing practices, sustainable process improvements and reduce environmental footprint throughout product realization.

9 SUSTAINABLE SUPPLY CHAIN
Encourage suppliers, contractors, transport partners and service providers to adopt environmentally responsible practices that support our sustainability objectives.

10 EMPLOYEE AWARENESS & PARTICIPATION
Develop environmental awareness and competence among employees through training, communication and involvement, making environmental responsibility an integral part of our culture.

11 CONTINUAL IMPROVEMENT
Establish measurable environmental objectives and targets, periodically review performance, evaluate risks and opportunities, and continually improve the effectiveness of our EMS.

12 STAKEHOLDER COMMITMENT
Communicate transparently with customers, employees, regulatory authorities, suppliers, local communities and other interested parties regarding our environmental commitments and sustainability initiatives.

OUR SUSTAINABILITY COMMITMENTS

- 76% ELECTRICITY THROUGH SOLAR ENERGY
- CO_2 REDUCE CARBON FOOTPRINT
- CONSERVE WATER & NATURAL RESOURCES
- REDUCE REUSE RECYCLE
- ENVIRONMENT FRIENDLY MANUFACTURING
- RESPONSIBLE SUPPLY CHAIN PRACTICES
- EMPLOYEE AWARENESS & INVOLVEMENT
- CONTINUAL IMPROVEMENT

OUR ENVIRONMENTAL VISION

To be a globally respected manufacturer delivering precision automotive components through environmentally responsible, energy-efficient and sustainable manufacturing practices.

OUR ENVIRONMENTAL COMMITMENT

At R.E. Components Pvt. Ltd., sustainability is not merely a policy—it is our responsibility. By generating approximately **76% of our electricity through renewable solar energy, conserving natural resources, preventing pollution, reducing environmental impact and continually improving our EMS, we are committed to creating long-term value for our customers, employees, society and future generations.**
